West Basin – Providing a safe and reliable supply of high-quality water to the communities we serve.

West Basin Municipal Water District is constructing the Palos Verdes Recycled Water Pipeline Project, a new 3.5-mile-long recycled water pipeline that will connect to West Basin’s existing system in Torrance and deliver recycled water for irrigation purposes to the Palos Verdes Golf Club.

What to Expect

Project activities include open trench construction, excavation, pipeline installation, backfill work, and supply and equipment deliveries.

- Lane closures, parking restrictions and turn restrictions in work areas; “No Parking” signs posted in advance
- Some noise, dust and vibration during work activities
- Through-traffic will be maintained at all times
- Access to driveways maintained at all times
- No disruption to utility, trash or delivery services

Location

Work will start on Via Las Vegas at the boundary trail and continue south to the Palos Verdes Drive North median, to Via Navajo and end at Paseo Del Campo.
